Inspection Report
Minerals Regulatory Program
Report Date: March 30, 2005

Mine Name: Mineral Fossil Lease #42750

Permit number: S/027/014

Operator or Permittee Name:

Inspection Date: 3/8/2005

Robert Drachuk

Permittee Mailing Address:

44 West 400 South

Box 206

Delta, Utah 84624

Inspector(s): Tom Munson, Lynn Kunzler, Doug Jensen

Other Participants: None

Permit Status: active

Current Acreages: : 1.7 acres

Total Permitted (Bonded): 1.7 acres (\$5,000 SITLA Bond)

Total Disturbed: 1.7 acres

Weather: Sunny

Inspection Start Time: 1:00PM

Inspection End Time: 2:00PM

Site location/Area Inspected (i.e. Pit #):

Pits associated with trilobite lease

Surface Ownership: Sitla

Mineral Ownership: SitlaML#42750

Mineral Mined: trilobites

Type of Mine: open pit

Elements of Inspection	Evaluated	N/A	Comment	Enforcement
1. Permits, Revisions, Transfer, Bonds	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2. Public Safety (open shafts, adits, trash, signs, highwalls)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. Protection of Drainages	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4. Explosives, magazines	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5. Deleterious Material	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Inspection Date:3/8/2005; Report Date:3/31/05
Page 2 of 2
S/027/014

Purpose of Inspection:

The purpose of this inspection was to visit this site and determine the extent of the disturbance associated with the Small Mine Notice. This site is set up as a commercial digging site for trilobites. The main pit is basically the same size as last inspection and has only been expanded a little to the North on the East side.

Directions to the site:

One hour west of Delta in the House Range

Inspection Summary:

The site is located on SITLA lands and SITLA holds the only reclamation bond for the site.

2.) The permit fees are current and the site is considered active.

7.) No concurrent reclamation has been preformed on site.

GPS data:

GPS data was collected for all pits. The GPS data indicates that the pits are 1.7 acres in size and as such will be watched closely for any expansion to determine if more reclamation bond is required.

Conclusions/Recommendations:

The operator has been informed of his responsibility regarding the new bonding rules and if he expands beyond his current disturbance, he may be considered for additional reclamation bond money.
